

HV 412, HV 414 and HV 416

NEW!

Automatic linking:

# THE NEW CASING HOLDING DEVICES FOR EXCELLENT PRODUCTIVITY LEVELS!

**GENTLE  
AND  
FAST  
LINKING**

**handtmann**  
*Ideas for the future.*

## IT IS THE **DETAILS** THAT CREATE **GENUINELY PRODUCTIVE SOLUTIONS!**

- HV 412 for small-scale producers who mainly work with natural casings.
- HV 414 and HV 416 can also be used in industrial applications in conjunction with PLH 216 and PLS 115 AL system.

**412 holding device**

- Slug lengths up to approx. 300 mm.
- Particularly gentle, fast linking of natural casing products.
- Fast casing change by means of quick, easy, one-handed operation for a continual increase in productivity.
- Easy casing brake adjustment without the need for tools.

**414 holding device**

- Slug lengths up to approx. 300 mm.
- For automatic linking of all standard types of casing, such as natural casings, including overlapped casings, as well as collagen and peel-off casings.
- Gentle, fast linking by driven, finely-tuned and flexible casing brake.
- Fast casing change by means of quick, easy, one-handed operation.
- HV 414, now also in the PLS 115 AL system.

**416 holding device**

- Slug lengths up to approx. 430 mm.
- For automatic linking of all standard types of casing, such as natural casings, including overlapped casings, as well as collagen and peel-off casings.
- Gentle, fast linking by driven, finely-tuned and flexible casing brake.
- Fast casing change by means of quick, easy, one-handed operation.
- HV 416, now also in the PLH 216 AL system.

### **HV 414/ HV 416 options:**

- Automatic holding device opening.
- Casing end detection for natural casings.
- Vacuum filling machine starts and stops automatically.
