

NEW

CSS 2.0 ADSORBERMATERIAL

The CSS 2.0 Adsorbermaterial allows a gentle stabilization process over years without influencing the product quality.

The brand new CSS 2.0 Adsorbermaterial is both significantly more active and yet preserving the benefits of the CSS system.

Your benefits

- Much higher polyphenol reduction
- Much better haze stability
- No need to use salt or CO₂ during regeneration
- Shorter regeneration time needed
- Easy to upgrade into existing CSS plants

Please get in contact with us for more detailed information.
