

handtmann
Ideas for the future.

ROOM FOR YOUR IDEAS AND THEIR IMPLEMENTATION

We are usually on site with our customers worldwide, but we are more than happy to have it the other way around and invite you to come to us. Our international technology centers are the perfect place to work with our specialists to test and optimise the production of your products or product ideas using state-of-the-art machine technology.

WE TURN IDEAS INTO SOLUTIONS.

YOUR SOLUTION PARTNER WITH LINE AND PROCESS EXPERTISE.

WE TURN IDEAS INTO SOLUTIONS – SINCE 1954

Since the company was established in 1954, Handtmann has made a significant impact and managed to take the core technologies of filling and portioning to a technical premium standard for the food industry. Today, we offer not only modular individual machines, but also technically outstanding networked line solutions.

In doing so, we like to think beyond, and have not only developed the perfect solution for filling, portioning, linking, forming and dosing, but start at the product preparation stage with the appropriate mixing and grinding technology. For the downstream processes that follow the processing, we provide flexible product handling systems and interfaces for maximum automation and line expertise.

THERE IS MORE WE CAN OFFER:

- Leading technology for highly-efficient and economical production solutions, featuring high capacity coupled with low costs
- Excellent portioning accuracy combined with significant cost reduction and sustainable conservation of resources
- Variable solutions provide scope for flexible use in line with fast-moving trends and changing market requirements
- Uncompromising quality for maximum availability and low operating costs
- Handtmann hygienic design lays excellent foundations for food safety at the highest level

OUR EXPERTISE FOR YOUR INDUSTRY SECTOR

No matter how diverse the dietary habits and market trends in your industry sector may be, you always remain flexible with Handtmann. We will come up with the perfect solution for your idea as well.

 Meat and sausage products

YOUR SOLUTION PARTNER WITH LINE AND PROCESS EXPERTISE.

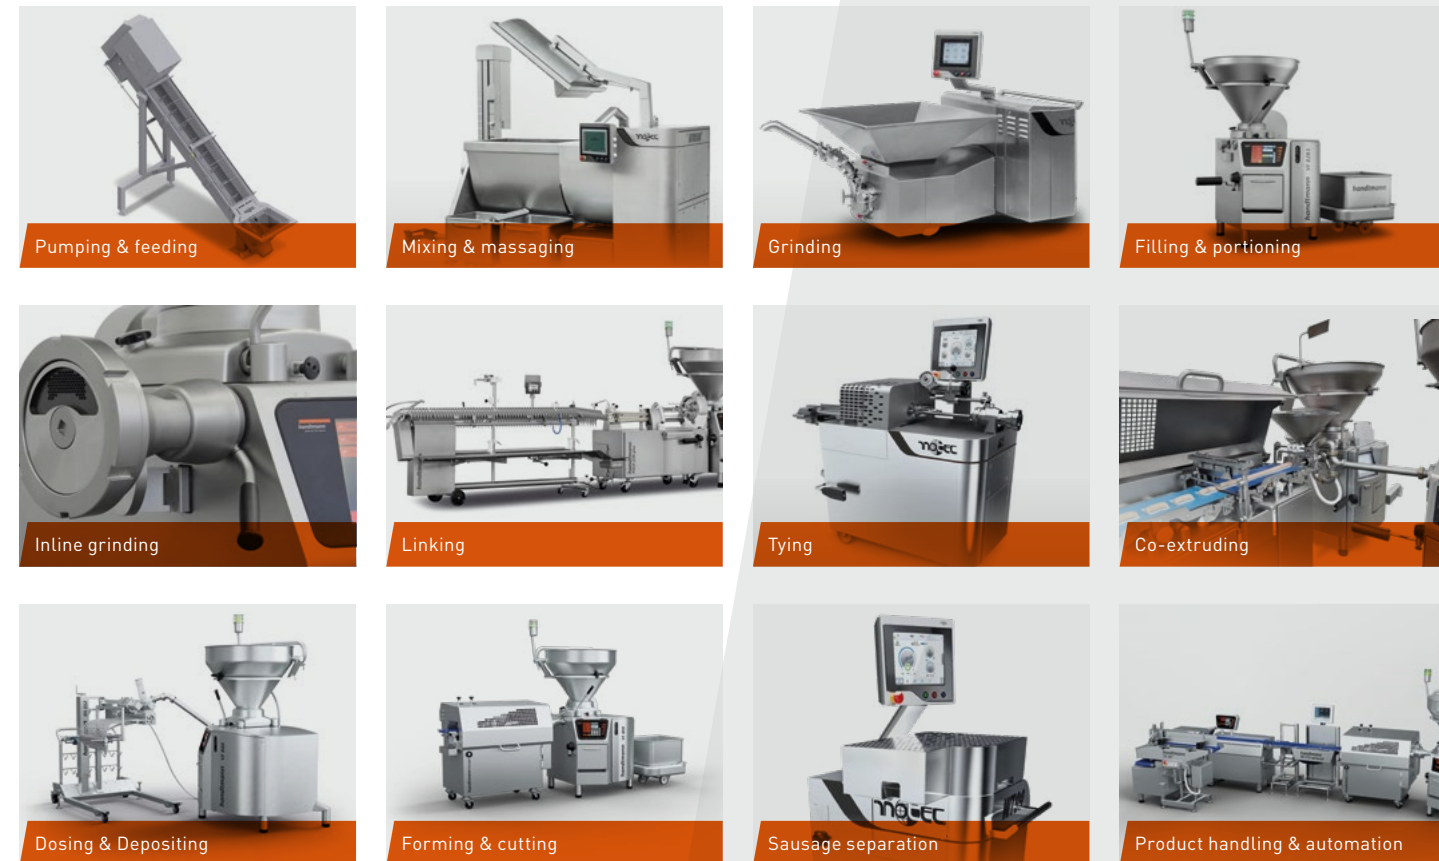

You have ideas – we have just the right solution for them. From product preparation to filling and portioning technology and product handling – our process solutions to match your needs. Benefit from our many years of in-depth expertise, our process-reliable technology and our excellent service.

Let us turn your ideas into solutions.

HANDTMANN TECHNOLOGY FOR YOUR SUCCESS

We see ourselves as your partner and facilitator in the implementation of modern food products and the realisation of economically efficient production solutions. We combine state-of-the-art technology with well-founded expertise in food technology and value-adding services from beginning to end of the production process.

We have the technology experts for your solution:

HANDTMANN = ADDED VALUE FOR EVERYONE

We take things one crucial step further and offer additional services perfectly matched to our excellent technology. Our goal: Create added value for you so you can remain flexible and respond quickly to evolving market trends and changing customer needs.

MY IDEA.

Handtmann Customized Solutions and Handtmann Line Solutions:

When standardised solutions reach their limits, it is time to find customised approaches. We develop perfectly customised solutions tailored to specific production process.

Technology centres:

This is where we offer room for your ideas and support with our expert knowledge and state-of-the-art technology: trials, testing, optimisation.

Consumables:

Handtmann original consumables such as cutting sets and sausage twine will get the optimum out of your machines. Improved product quality, increased production output and reduced costs per unit.

MY SOLUTION.

Handtmann Digital Solutions:

Securing economic production today requires not only highly productive machines and systems, but also intelligent digital solutions. Embarking on your digital transformation – step by step and at perfect ease with Handtmann Digital Solutions.

Re-engineered machines:

Handtmann machines are fully dismantled and reconditioned completely and professionally in our dedicated Second-hand Machine Centre in Zittau (Germany). 6-month manufacturer's warranty included.

Financing solutions:

We offer state-of-the-art technology and straightforward financing options at excellent conditions from a single source.

Service support:

Our service and partner network is available worldwide. Around the clock and with an extensive stock of original spare parts – fast and competent.
