# HANDTMANN REMANUFACTURED

Factory approved quality

# FUTURE MEETS EXPERIENCE

We vouch for an orange future! It is important to us to do our bit for greater sustainability and environmental protection, and you can help us with it. Revolutionise your products by choosing Handtmann power with personality and a factory remanufactured machine.

Make a simple, smart contribution to environmental protection and benefit:

- Environmentally friendly: Remanufactured supports the circular economy and saves resources.
- Immediately available: Short delivery times minimise your down-times in production.
- Proven technology: Remanufactured machines have already given proof of their reliability and performance.

## OUR PROPOSAL:

- Complete dismantling and thorough full cleaning of the machines
- Guaranteed replacement of the pump housing and thus continued optimum weight accuracy for your products
- Preventive replacement of important functional components and full replacement of all worn parts
- Installation of original Handtmann spare parts
- Final inspection by the quality inspection system
- 6-month manufacturer's warranty included
- Customised configurations possible

Your remanufactured Handtmann solution is therefore always technically up to date and can be easily integrated into existing or new lines. Get in touch!
